CONTENTS FOR
HEAT TRANSFER-Soviet Research
Volume 23, Nos. 1-8, 1991

Number 1

1 Heat Transfer and Hydraulic Resistance of Vapor Condensing in Tubes and Coils
N.I. Ivashchenko, O.P. Krektunov and L.V. Lebedeva

14 Heat Transfer and Friction in a High-Enthalpy Converging Gas Flow
V.A. Strelkov

21 Heat Transfer in Transition Flow of Air at High Heat Fluxes [(4. Correlation of Data on Combined (Free and Forced) Convection in the Case of Constant Physical Properties of the Flow)]
V.E. Kaupas and P.S. Poskas

38 Mass Transfer in an Annular Combustion Chamber with Oppositely Swirling Jets
K.Yu. Sokolov

46 Radiative-Convective Heat Transfer on a Thin Plate
A.M. Timofeyev

54 Complex Heat Transfer in Liquid Organic Compounds
L.G. Vetoshkina, V.A. Alyayev and A.G. Kolupayev

63 Attenuation of High-Amplitude Waves in Gas-Liquid Mixtures: Effects of Heat Transfer
V.L. Izergin

71 Experimental Study of Unsteady Heat Transfer in a Convergent Channel
Yu.G. Volodin and A.V. Fomin

78 Heat Transfer in a Plane Turbulent Jet Interacting with a Barrier
A.P. Yezerskiy and Ye.S. Stepanova

86 Condensation Heat Transfer in Dissociating Systems
Yu.A. Golubnichiy, Yu.V. Klimenkov, L.I. Kolykhan and V.F. Pulyayev

93 The Film Boiling Crisis and Transition Boiling
E.K. Kalinin

CONTENTS FOR
HEAT TRANSFER-Soviet Research
Volume 23, Nos. 1-8, 1991

Number 1

1 Heat Transfer and Hydraulic Resistance of Vapor Condensing in Tubes and Coils
N.I. Ivashchenko, O.P. Krektunov and L.V. Lebedeva

14 Heat Transfer and Friction in a High-Enthalpy Converging Gas Flow
V.A. Strelkov

21 Heat Transfer in Transition Flow of Air at High Heat Fluxes [(4. Correlation of Data on Combined (Free and Forced) Convection in the Case of Constant Physical Properties of the Flow)]
V.E. Kaupas and P.S. Poskas

38 Mass Transfer in an Annular Combustion Chamber with Oppositely Swirling Jets
K.Yu. Sokolov

46 Radiative-Convective Heat Transfer on a Thin Plate
A.M. Timofeyev

54 Complex Heat Transfer in Liquid Organic Compounds
L.G. Vetoshkina, V.A. Alyayev and A.G. Kolupayev

63 Attenuation of High-Amplitude Waves in Gas-Liquid Mixtures: Effects of Heat Transfer
V.L. Izergin

71 Experimental Study of Unsteady Heat Transfer in a Convergent Channel
Yu.G. Volodin and A.V. Fomin

78 Heat Transfer in a Plane Turbulent Jet Interacting with a Barrier
A.P. Yezerskiy and Ye.S. Stepanova

86 Condensation Heat Transfer in Dissociating Systems
Yu.A. Golubnichiy, Yu.V. Klimenkov, L.I. Kolykhan and V.F. Pulyayev

93 The Film Boiling Crisis and Transition Boiling
E.K. Kalinin

107 Mist-Annular Flow in Heated Vertical Channels
V.V. Petukhov and A.B. Zlokazov
117 Boiling Heat Transfer on a Horizontal Pipe with a Wick-Covered Surface
L.L. Vasil'yev, S.V. Konev and V.M. Khaustov
124 Enhancing Drop Moisture Deposition in Louver Separators
L.S. Sterman and V.A. Devyanin
138 Heat Transfer in a Spatially Periodic Electric Vortex Flow
N.Yu. Kolpakov

Number 2

147 Vorticity Processing and Phenomena
M.A. Goldshtik
204 Mathematical Simulation of Turbulent Free Convection
D.V. Bayandin, I.I. Wertgeim and G.Z. Fineburg
261 Steam Condensation Heat Transfer on Smooth and Profiled Vertical Tubes
A.V. Mikhaylov
269 Heat Transfer in Condensation of Flowing Steam Across Vertical Twisted Tubes
Yu.M. Brodov, K.E. Aronson and B.V. Berg
275 Condensation Heat Transfer on Horizontal Tubes with Ribs of Constant Curvature
O.A. Kabov and I.V. Padyukov
284 Determination of the Section of Onset of High-Rate Surface Boiling in Pipes
V.L. Fedorov and L.F. Fedorov

Number 3

291 Numerical Modeling of Separated Flow Over and Heat Transfer from a Circular Cylinder or a Plate in Longitudinal Flow of Air
P. Vaitiekunas, A. Žukauskas and J. Žiugžda
306 Heat Transfer from a Flow Over a Cylinder Located Near a Flat Wall
G. Miškinis, P. Daujotas and A. Žukauskas
316 Analytic Prediction of Heat Transfer and Hydraulic Drag in Annuli
A. Kuršiene
323 Momentum, Energy and Mass Transfer in Variable Cross-Section Channels (4. Numerical Modeling of Conjugate Heat and Mass Transfer in Ducts)
V. A. Šidlauskas, E.V. Bajarunas, M.M. Tamonis and L.S. Yanovskiy
335 Heat Transfer from a Wire in Crossflow at Low Reynolds Numbers
J. Žiugžda, Yu. Tonkonogiy and V. Buz
344 Enhancement of Heat Transfer in Condensation of Refrigerant Vapor on Horizontal Finned Tubes
O.P. Ivanov and S.V. Khizhnyakov

352 Effect of Variability of the Physical Properties of the Gas on Combined (Free and Forced) Convection Heat Transfer in Vertical Pipes
V. Kaupas and P. Poškas
366 Heat Transfer from a Turbulent Air Flow in a Conical Diffuser
V.T. Buglayev and F.V. Vasilyev
371 Turbulent Boundary Layers with Injection and Suction
A.I. Leontiev
378 Heat Transfer in a Turbulent Twisted Jet Incident on a Plane Barrier
K.N. Agafonov
384 Calculation of Radiative Heat Transfer in Selective Systems
V.N. Adrianov
394 Vertical Turbulent Transport and Longitudinal Dissipation of Heat in Cooling Ponds
M.R. Dižius and K. Marcinkus
413 Bidirectional Reflectivity of Mirrors in Solar Power Plants
B.A. Khrustalyov and R.K. Ragimov
426 Investigation of Combustion of Metal Particles by Spectral Methods
A.N. Zolotko and A.V. Florko

Number 4

435 Nonlinear Heat Conduction with Combustion
V.A. Galaktionov, S.P. Kurdyumov and A.A. Samarskiy
470 Use of a Laser Doppler Anemometer to Study Turbulent Swirled Jets
E.P. Volchkov, M. Matovich, S. Oka, S.Yu. Spotar, and I.A. Chokhar
503 Extension of the Generalized Logarithmic Velocity Distribution to the Case of Flow of Ducts with Corners
A.L. Mironovskiy
510 Engineering Model of Flow of Gas in Bounded Flow Spaces of Heat and Mass Exchangers
P.L. Shmachkov, Ye.A. Kapustin and A.M. Kulakov
518 Unsteady Heat Transfer in the Case of a Step Application of Supracritical Heat Loads
S.G. Obukhov and V.N. Drulis
523 Shape of Droplets of Water and of Surfactant Solutions during Evaporation
M.G. Krekhova and V.D. Dolzhikova
528 Dependence of Dynamic Contact Angles on the Flow Velocity
B.D. Summ and E.A. Raud
532 Improved Prediction of the Rate of Formation of Calcium Carbonate Scale in Heat Exchangers of Secondary Loops of Conventional Thermal and Nuclear Power Plants
O.V. Tret'yakov, V.G. Kristskiy and P.S. Styazhkin
539 Combined Heat Exchange between a Radiating Gas and a Surface
V.P. Motulevich and E.D. Sergiyevskiy

550 Heat Transfer and Residual Stress in Deposition of Coatings from a Gas Plasma
M.A. Geller and I.L. Kupriyanov

Number 5

579 An Engineering Method for Determining the Heat Flux from Temperature Measurements
G.A. Surkov and Yu.I. Lanin
586 Effect of Buoyancy Forces in a Jet of a Heterogeneous Mixture of Reagents
Yu.A. Sokovishin and A.V. Soldatkin
594 Modeling of Explosive Fragmentation of Molten Metal Upon Its Interaction with a Cold Liquid
V.P. Mitin, Z.P. Shul'man, O.R. Dornyak and S.P. Levitskiy
603 Effect of Nonuniformity of Subcooled Boiling Flow on the Onset of Thermoacoustic Vibrations
V.A. Gerliga, V.I. Skalozubov and V.Ya. Lesin
611 Mechanisms of Self-Excitation of Thermoacoustic Vibrations in Two-Phase Bubble Flows
V.I. Skalozubov
621 Correlating Equations for Heat Transfer in Flows of Strongly Nonisothermal Gases
V. Makarevičius and V. Garbenis
637 Mathematical Modeling of Drying and Pyrolysis of Pulverized Brown Coal at High Heat Flux Densities
N.M. Tsirul'nichenko, T.I. Vishnevskaya and M.S. Pronin
643 Unsteady Heat Transfer in Granular Beds
V.A. Borodulya, Yu.S. Teplitskiy, I.I. Markevich and V.P. Borisenko
649 Enhancement of Steady-State Post-Dryout Heat Transfer in an Annulus with Spacers
I.G. Kim and B.P. Korol'kov
658 Condensation of Vapor and of Vapor-Gas Mixtures on a Turbulent Film of Liquid in a Vertical Pipe
V.I. Volodin and A.A. Mikhalevich
665 Heat Transfer from a Horizontal Cylinder with Forced Convection Inside and Free Convection Outside
S.Ye. Gusev, I.V. Kaznacheyeva and G.G. Shklover
674 Heat Transfer and Aerodynamic Drag of Bundles of Bimetallic Finned Tubes with Small Numbers of Transverse Rows
V.B. Kuntysh and N.N. Stenin
683 Heat Transfer in Condensation of Vapor on a Wire Rib (Fin)
Yu.A. Golubnichniy, Yu.V. Klimenkov, L.I. Kolykhan and V.F. Pulyayev
693 Heat Pipes for Utilization of Alternative Sources of Heat and Cold
L.L. Vasil'yev
703 Convective Heat and Mass Transfer in Combustion Chambers of Piston Engines. Basic Results

M.R. Petrichenko and R.M. Petrichenko
716 General-Purpose Radiant Heater
V.N. Yeliseyev, V.A. Tovstonog, K.V. Chirin, B.B. Petrikevich, V.A. Selezenev and Ye.K. Belonogov

Number 6

721 Turbulent Momentum and Heat Transfer in Channel Flows of Gases with Variable Physical Properties
J. Vilemas, V. Šimonis and E. Uškpuras
742 Calculation of the Turbulence Characteristics in the Regions of Separation and Reattachment of a Viscous Fluid Flow
P. Vaitiekunas
751 Numerical Analysis of Turbulent Transport in Combined (Forced and Free) Convection in Vertical Channels
E. Ušpuras and P. Poškas
775 Correlation of Results on Local Coefficients of Heat Transfer in Helical Ducts
P. Poškas, V. Šukys and V. Simonis
788 Coefficients of Local Heat Transfer for the Initial Thermal Stabilization Zone of Coiled Tubes
V. Mikaila, P. Poškas and J. Vilemas
798 Convective Instability of a Reacting Liquid in a Horizontal Layer
A.K. Kolesnikov
805 Hydraulic Drag and Mixing of the Fluid in Spheres Packed Around Longitudinally Running Cylinders
S. Rimkevičius, V. Survila, A. Bagdonas and R. Jankauskas
814 Heat Transfer and Drag in Axial Flow of Air Through Beds of Spheres Packed Into Narrow Annuli
S. Rimkevičius, V. Survila and R. Jankauskus
828 Heat Transfer and Hydraulic Drag of Compact Bundles of Finned Tubes Operating in Cross Flow
V. Ilgarubis, A. Butkus, R. Ulinskas and J. Ziugzda
844 Vibrations of Smooth and Finned Tubes in Crossflows of Viscous Fluids with Different Turbulence Levels
V. Katinas, E. Perednis and V. Svedosčius
852 Heat Exchange with Infinitely Long Heaters in Radiative Heat Exchangers
O. Tutlyte, L. Dagys and M. Tamonis
863 Correlation of Data on the Heat Transfer Efficiency of Exchangers
A. Žukauskas, R. Ulinskas and V. Zakrevskiy

Number 7

871 Heat Transfer in Pipe Flow of Organic Coolants That May Undergo Pyrolysis
L. Yanovskiy, E. Bajarunas, V. Sidlauskas and M. Tamonis
2054 Contents for 1991

884 Generation of Turbulence by Means of a Longitudinal Baffle in a Flow with a Low Reynolds Number in a Flat Duct
I. Žiugžda and Yu.L. Tonkonogiy
892 Heat Transfer in a Cavity with a Permeable Partition
R.V. Birikh and R.N. Rudakov
897 Mathematical Modeling of the Thermal Process in Industrial Combustion Chambers
V. Šidlauskas and M. Tamonis
915 Heat Transfer in the Bonnet of a Full-Size Large Gate Valve
G. Zdanavičius, A.-R. Jonaitis and A. Žukauskas
925 Conversion of Fuel-Bound Oxygen by Injection of Water or of Recycled Fuel Gas into the Flame
V. Lukoševičius, L. Tsirulnikov and K. Biunevičius
934 The Motion of the Domain Boundary Between Dissipative Structures
A.A. Nepomnyashchiy
942 Vibrational Convection in a Rectangular Cavity
R.R. Sirayev
949 Motion of an Inhomogeneous Liquid in High-Frequency Translational Vibrations
D.V. Lyubimov and A.A. Cherepanov
959 Vibrational Thermal Convection in a Horizontal Layer with Internal Heat Sources
G.Ye. Gershuni, Ye.M. Zhukhovitskiy and Yu.S. Yurkov
968 Stability of High-Frequency Oscillating Flow in Channels
V.G. Kozlov
977 Convection in a Spherical Cavity in the Presence of a Temperature Gradient
V.I. Chernatynskiy
985 On the Spiral Oscillational Instability of a Plane-Parallel Advective Flow
V.M. Myznikov
990 Stability of Free-Convective Flow in a Horizontal Cylindrical Layer in a Vibrational Field
A.A. Ivanova
999 Vibrational Convection in a Cavity Undergoing Spatial Pendulum Oscillations
V.G. Kozlov
1009 Vibrational Convection in a Cylindrical Layer
V.I. Chernatynskiy

Number 8

1017 Thermal Contact Resistance at High Heat Flux Densities
J. Balcevič and R. Bolšaitis
1034 Heat Transfer Through Short Gaps and Contact Heat Transfer Between Solids
J. Balcevič and R. Bolšaitis
1057 Experimental Study of the Film-Boiling Crisis on Spherical Walls
V.V. Klimenko and S.Yu. Snytin

1062 Cellular Turbulent Convection in a Horizontal Liquid Layer Heated from Below
D.V. Bayandin and I.I. Wertgeim
1073 Free Convection from Horizontal Cylinders with Air Injection
S.Ye. Gusev, A.E. Okunev and G.G. Shklover
1079 A Universal Semiempirical Model for Free-Convective Turbulence of Incompressible Liquid
G.Z. Fainburg
1085 Concerning Thermal Convection in a Hele-Shaw Cell
L.M. Braverman
1092 Heat Transfer and Flow in a Liquid Layer Heated from Below
V.S. Berdnikov, M.I. Grekov, V.I. Malyshev, V.A. Markov and Yu.M. Pshenichnikov
2027 Nonlinear Stability of Cylindrical Interfaces of Liquids in the Presence of Rotation and Axial Vibrations
V.A. Briskman, I.D. Muratov and A.A. Cherepanov
2033 New Exact Solutions of the Boundary Layer Equations
G.I. Burde
2039 Fluid Motion in the Vicinity of a Rotating Sphere
V.G. Yefimova and V.I. Yakushin
2048 Heat and Mass Transfer in Dead-End Slotted Channels
L.A. Minukhin and M.Ya. Lakhovskiy
